appamleisan@gmail.com | +1 208-710-9432

linkedin.com/in/leisan23 | github.com/Appam23

PROFESSIONAL SUMMARY

Web Design and Development student with hands-on experience updating production WordPress websites and building responsive web applications. Works with HTML, CSS, JavaScript, Astro, EJS, and PostgreSQL. Interested in creating clear, usable digital experiences and contributing to a web development team.

TECHNICAL SKILLS

Web: HTML5, CSS3, JavaScript, responsive design, Astro, EJS, WordPress
Programming & databases: C#, Python, MySQL, PostgreSQL
Tools & design: Git, GitHub, VS Code, Netlify, Adobe Photoshop, Adobe Illustrator

PROFESSIONAL EXPERIENCE

Sandhill Media Group | Web Design & Development Intern
September 2026 - Present

- Edit and maintain WordPress content, page layouts, and design elements across live websites.
- Update ICON Gaming pages and presentation; manage event listings and related content for Radio Hex; support page and content updates for Score Medicare.
- Troubleshoot content and presentation issues while maintaining consistency with existing website structures.

SELECTED PROJECTS

Used Car Dealership Web Application | EJS, PostgreSQL
cse340-final-project-leisan.onrender.com

- Developed a dealership web application with vehicle details, account registration and login, and inquiry forms.
- Implemented reusable EJS layouts, session-based authentication, flash messaging, and custom error pages.

Personal Portfolio Website | Astro, Responsive Design
leisanportfoliojob.netlify.app

- Built a responsive portfolio presenting technical projects and professional website contributions; refine content, layout, and presentation as work develops.

Tangkhul Culture Website | HTML, CSS, JavaScript
appam23.github.io/Tangkhul_Culture

- Created a responsive cultural heritage website presenting language, traditions, music, food, and celebrations.
